

Project Title: Enhancing Curriculum and Building Capacity in Aboriginal Education for Faculty and Teacher Candidates: Year 2 Evaluation

Project Summary (150 words maximum)

The Faculty of Education recently approved a re-visioned teacher education program for September 2012 which includes a new required course for 600+ Teacher Candidates, EDUC 440, *Aboriginal Education*. The project being proposed in this application represents Year 2 of a larger TLEF project for which we received funding 2010/2011. In **Year 2** the goal of the continuing TLEF is to:

- 1) Assess the contribution of these digital learning units to nearly 600 Teacher Candidates' learning by determining: a) knowledge and skills to working with Aboriginal content, history, and perspectives; and b) development of skills related to technology.
- 2) Revise the digital learning units based on feedback from teacher candidates at the conclusion of the course.
