

**Project Title: *CanLit Guides (was Reading and Writing Canada)***

**Project Summary**

*Canadian Literature (CL)* seeks to complete its online resource guides, *CanLit Guides (CLG)*: see [www.canlitguides.ca](http://www.canlitguides.ca). The guides draw on *CL*'s vast online databases for students and teachers by (1) presenting modules focused on historical and topical connections and questions for Canadian literary analysis, (2) integrating relevant resources across the genres from the journal, and (3) guiding students through critical assessment and writing skills for literary criticism. Having completed three guides in the first two years of the project, in the final phase we will complete two more guides. We will also respond to feedback from current development and implementation regarding user-friendliness and learning needs by widening the breadth, navigability, and multimedia elements of *CLG*. Finally, we will solidify the infrastructure necessary to sustain the project by hosting a digital development workshop, and developing external submission criteria and other online systems.
