

Geography Field Course in Williams Lake

Field Research Grounded in
Environmental, Social and
Economic Sustainability.

Collaboration with
First Nations Leaders
Mining Professionals
Local Government
Urban Farmers

Work with BC
community
partners to reach
research goals

Apply knowledge from academic courses to a
contemporary social & environmental
challenge

• • •

Appreciate how knowledge is acquired through
original research

• • •

Engage with diverse research methods in geogra-
phy, choose the appropriate method for a research
task and evaluate the chosen method

• • •

Gain a critical awareness of surroundings at
UBC and Vancouver

• • •

Enhance relationships with local communities
creating a better understanding of their economic,
social, cultural & environmental landscapes

• • •

Alternative Assessment

Mini Research Days,
Blogs , Field Visit and a
Virtual Conference
