

Co-creating Aquatic Science with Indigenous Communities

Dr. Andrea Reid, Dr. Margot Helsing-Lewis, Dr. Sarah Harper, Dr. Colette Wabnitz, Carrie Anne Vanderhoop
Graham Brownlee, Sara Cannon, Katy Davis, Skil Jaada (Vanessa Zahner)

Goal

To develop a framework for Indigenous community engagement aimed at supporting future university & local leaders in **co-creating sustainable, just, and equitable community-centred aquatic science.**

Course co-development activities & timeline

GOAL 3: Moving Research Forward

GOAL 4: Indigenize Curriculum

GOAL 7: Providing Tools for Success

Aligning with UBC's Indigenous Strategic Plan

- Identify community priorities in aquatic science
- Identify existing programs & gaps in community-centred training
- Co-develop a new course on effectively partnering with Indigenous communities
- Create an adaptive framework for reciprocal exchange between UBC & Indigenous communities that responds to community-defined priorities
